## REPORT OF THE SUPERINTENDENT

---

To the School Board of Stratham, New Hampshire:

It is with pleasure that I submit my ninth annual report as superintendent of schools.

The school year 1956-1957 began with the following teaching staff:

Mrs. Gwendolyn Allen, principal and teacher of grades 5-6.

Mrs. Bertha Wiggin, grades 4-5.

Mrs. Gladys Clements, grades 2-3.

Mrs. Hilda Barker, grades 1-2.

Mrs. Eleanor Henry, music teacher.

Miss Mary Shea, school nurse.

There was one change in the personnel of the previous year. Mrs. Gwendolyn Allen of Shirley Mills, Maine, replaced Miss Edna Crane as principal and teacher of the upper grades.

The staff is conscientious and dependable and is working hard to provide good training for the boys and girls.

I would like to take this opportunity to pay tribute to Miss Edna Crane who retired last June after serving the community as a teacher for over thirty years. She was always sincere, diligent and faithful in her work. The contribution which she made to the young people of this district is immeasurable.

The plan for an addition to the building which has been prepared by the Building Committee and approved by the district is in my opinion a very good one. It provides for four additional classrooms, a stage for the

present auditorium, a larger teachers' room and storage space, and gang toilets. Eventually Stratham will need a classroom for each grade that is housed in the district. I sincerely hope that the citizens will vote at the district meeting to construct this addition so that every effort can be made to have it ready by next fall at which time it will be needed.

The action taken by the Exeter School Board which will require the Stratham School District to provide education for the seventh grade starting with the next school year and for the seventh and eighth grades as of September, 1958, complicates the housing problem.

One solution would be to provide permanent housing for these grades in the local school which would mean one more classroom than is provided in the proposed addition.

Another solution would be to think in terms of joining in the formation of a Cooperative School District with other districts in the area to build a Junior High School for the seventh and eighth grades. An unofficial committee representing the districts of Brentwood, East Kingston, Exeter, Kensington, Newfields and Stratham has held several meetings to study this possibility.

I believe that at the school district meeting the next step should be taken: namely, to appoint representatives to form an official committee to continue the study of this proposal.

There appear to be certain advantages to this solution of the problem both financially and educationally. Until such time as final disposition has been made of this possibility, the four room addition to the present plant would seem to be the logical solution for the present.

Application has been made for Federal Aid under Public Law 815 to help finance the cost of the construction. At this writing word has been received that the application has been approved, a priority rating has been given to it, and that \$16,740.00 in Federal funds has been reserved tentatively for the project pending final action on the application.

The Parent-Teacher Association continues its active support of the school program.

The hot lunch program is capably operated by Mrs. Naomi Beairsto and Mrs. Ruth Young.

I call your attention to the reports of the school nurse and the music teacher and to the tables which follow.

I extend my appreciation to the citizens, the members of the School Board and the teachers for their continued support and cooperation.

Respectfully submitted,

RAYMOND A. HOYT,

Superintendent, Supervisory Union No. 16

## REPORT OF MUSIC SUPERVISOR

---

To the Superintendent of Schools:

For many children entering the first grade, the musical experiences that they have in the school are among their first. It is true that radio and television give children the opportunity of listening to music, and this is good if the music is good. Fortunate are those children who have had a musical environment in the home during their pre-school years.

The importance of the classroom teacher in the school music program cannot be over-emphasized, for it is she who can provide richness in the lives of the children, as daily musical experiences for the pupil must be provided by her. Much help can be given her with a record player and some good records.

As music educators stress the importance of bodily response to music, much is done, especially in the lower grades, with this type of musical experience. Responding to music through various types of rhythmic activities, action songs, singing games, dancing and work with rhythm band are examples of this type of activity.

As many children have not found their singing voices when they first enter school, work to obtain this result is important.

In the third grade, work with tonettes is begun. This is valuable as a beginning for note-reading, and also often gives the pupils an interest in studying another instrument later on. A clarinet instructor recently told a new pupil that he thought that her work with the tonette in school had been a big help to her in learning to play this new instrument. It is true that the tonette and clarinet have similar features.

Learning the fundamentals of music, note-reading, part-singing, dancing, listening to music and music appreciation are also part of the music program.

In the spring, a Mexican musical program was presented at the schoolhouse by the pupils of the school. From the proceeds of this program new records were purchased and some movies for the visual-aid program were obtained.

Previous to the Christmas vacation, a Christmas program was given by the pupils, for their parents and friends.

In closing, I wish to thank Mr. Hoyt, the members of the School Board, the P.T.A., the teachers and the parents for their co-operation.

Respectfully submitted,

ELEANOR HENRY

Stratham, N. H.

## SCHOOL HEALTH REPORT

---

To the Superintendent of Schools:

During the past year half of the school children in Stratham had physical examinations under the supervision of Dr. Tuthill, pediatrician. Many remediable conditions were found and in most cases these have already been attended to by the parents. Some have been referred to special clinics if such have been available. Analysis on the above children showed none with a diabetic or kidney condition.

All the children were eligible for two polio shots and the vast majority have received these. There are no plans at present for a third shot. In most cases this can be obtained from the family physician.

The second half of the children will have physical examinations before spring, again under the direction of Dr. Tuthill.

I wish to thank all of the teachers and parents for their help during the past year, and especially to thank the Parent Teacher Association for their help with the examinations.

Respectfully submitted,

MARY G. SHEA, R.N.

School Nurse
